BARBECUE WILL BE A MAN WITH A GUN IS REPUBLICANS ISSUE

BIG FEATURE OF FASHION SHOW CAUSE OF MUCH DISTURBANCE

A CALL FOR A CONVENTION

The old saying "The best way to a man's heart is through his stomach" is to be thoroughly tried out on the second day of the Fashion Show and Harvest Festival. The test will take place on Hudson avenue, at a spot to which the public will need no guidance save that of the rich aroma of roasting beef. The said aroma, according to members of the "Barbecue" committee, will be mixed with the city's usual clear ozone through a wide area, from noon on Saturday, the 26th, until 5 p. m. the same day. From noon, until 2 o'clock, however, the waiting thousands will have to be satisfied with the savory vapor, as Tom Burk, chairman of the barbecue committee, believes that everything should be in readiness before the "pot" is opened. Some of the most experienced barbecue artists in the city are to be pressed into service to prepare the "big feed" and a hundred or more volunteer waiters will be employed in serving the multitude.

The barbecue committee will hold a special meeting at the Weber club tomorrow night to practice cafeteria signals and the proper way to wear an apron, as well as to consider the meat and coffee supply question. From the Fashion Show headquarters now comes the announcement that, for the first time in this part of the country, a GENUINE CHINESE BAND is to have a prominent part in the two days' carnival. The organization is the famous Portland, Ore., Chinese band of thirty-five pieces. It has been one of the most conspicuous and unique features of carnivals and celebrations in the Pacific Northwest for a number of years and is to be brought here through the good offices of the Chinese merchants of Ogden and the directors of the Fashion Show. This aggregation plays real music and will give the other five or six bands that will take part in the two parades, a hard run for popularity.

And then, there's the "BABY SHOW," the event last year that won Judge A. G. Horn widespread fame as the man who staged the largest show of the kind ever noted in the intermountain country. The judge is in the harness again this year and, with the very welcome assistance of Mrs. James Canse of the Children's Aid society and Mrs. L. L. Reynolds of the Martha society, and to make the 1915 baby show bigger than its predecessor.

The show window committee, consisting of W. D. W. Zeller, J. C. McFarland, Joe Harris and E. B. Stone has decided to offer three silver cups as prizes for the best decorated displays, considered in classes, large, medium and small. From reports they have already received as to what the merchants are preparing to do in the way of window dressing, there will be hot competition for the prizes and incidentally the Fashion Show crowds will find attractions off the streets vying with those to be staged on the streets.

News from the voting booths, where the fate of the aspirants for queen honors is being gradually decided, was to the effect that orders had been left by the queen committee to close the nomination lists on Wednesday night, September 15. WORLD'S MARKETS

Chicago Grain

Chicago, Sept. 13.—Wheat took a decided upward swing today after a show of weakness at the start. General rains northwest and a forecast of more gave courage to the bulls. At first, however, big receipts at the spring crop terminals, including Winnipeg, acted as more than an offset. The opening, which ranged from 1-4 to 1-4 3-4, was followed by a sharp general advance, which in some cases went as high as a bushel above Saturday night's level.

High temperatures making ideal conditions for growth cheapened corn. The weather was reported by producers to be the best of the season. After opening 1-8@1-4 to 1@1-8c down, the market rallied a little further with wheat.

Cats eased off somewhat as a result of the break in corn. Rural offerings showed a slight increase.

Transactions in provisions were few and far between. The market was nominally steady.

The wheat close was unsettled at 3-8@1-2 to 5-8c net gain, with September at 99 3-4c and December at 95 5-8c.

The corn close was weak at 3-4 to 7-8@1c net decline.
